# VIDEO MEASURING SYSTEM WS 11/WS 11-SP

The new retrofittable video measuring system  
for highly efficient and comfortable working

**NEW**

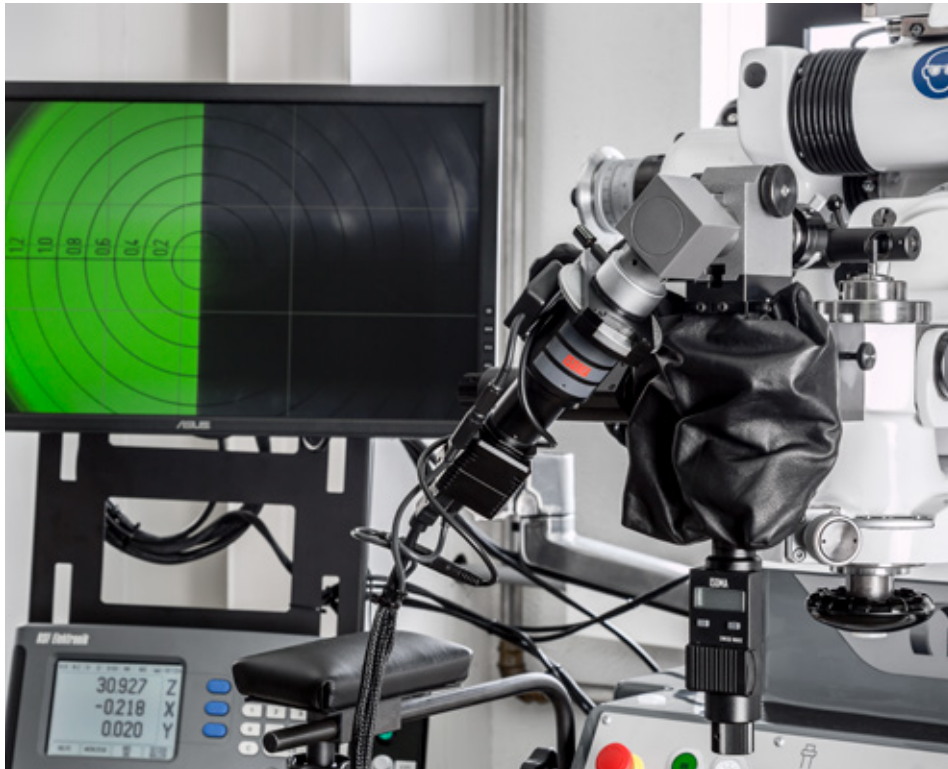

## Benefit

The retrofittable video measurement system replaces the conventional microscope and ensures fast and accurate measurement results separately or in parallel to the grinding process. In addition it provides maximum ease of operation and high efficiency.

# The new retrofittable video measuring system for the WS 11/WS 11-SP

1

## Benefits:

- Fast and precise measurement results
- Replaces the conventional microscope
- Can be retrofitted on existing machines
- Optical view: from the front & top
- Precise measurements possible even during the grinding process
- Maximum working comfort thanks to high resolution screen and digital display directly in the line of sight
- High efficiency
- Easy installation using
- "pick & place" system
